Join us **Thursday, February 2nd, at 2 PM ET / 11 AM PT** for a peer-led training session covering:

- How to virtually "string the tape" before arriving at a crime scene
- How to draw a virtual perimeter to identify vehicular leads proactively
- How to effectively implement and scale paired gunshot detection and LPR in low and high-crime areas to create situational awareness

We will also cover our latest updates to Raven, our gunshot detection and location system, and

our January software enhancements.
